Subject: Required information for driving scouts to official scout activities

1. For every official scouting activity that involves transportation we are required to provide our local council with a list of drivers. This is a BSA safety issue.
2. We are in the process of updating our driver list and I request that you please provide the following information if you think you may drive boys to an activity. (completing this form doesn't put you on the hook to drive). After you have completed this form, drop it off at any Scout meeting.

Thanks!

John Leckner
Scoutmaster
